PROCESS FOR THE OXIDATIVE PURIFICATION OF TEREPHTHALIC ACID

ABSTRACT OF THE DISCLOSURE

5

10

Disclosed is a process to produce a purified carboxylic acid slurry.

The process comprises removing impurities from a crystallized product in a solid liquid displacement zone to form the purified carboxylic acid slurry.

The purified carboxylic acid slurry is further cooled in a cooling zone and subsequently filtered and dried in a filtration and drying zone. The process produces purified carboxylic acid product having good color and low impurity levels without the use of purification steps like hydrogenation or filtrate purge.
